Hi David,

The pre-allocated approval number is Q060102.

Best Regards,  
Martin.

Hi David, they were on holidays until yesterday, there's no way you can get a cert this week, maybe next week.

I need a letter from you confirming the pins are the same as per previously approved model XX.

Best Regards,  
Martin.

**Subject:** Re: C-Tick for GT-41062 series

Hi David, you didn't send me a CB report, just 2 different EMC reports. If you have a relevant safety report with AU deviations, just omit the safety testing fee from the quote.

Best Regards,  
Martin.

Martin, I attached a CB report to the first e-mail, no?  
Can you re-quote based on Valid CD to be provided?  
Thanks!

ps. Happy New Years!!

Hi David, I assume you don't have a relevant safety report for this PSU. Please find the attached quote on this basis. If the size and weight of the PSU is different, there will be some additional tests required from AS/NZS 3112 however most of the pin testing can be excluded if you provide a letter stating the pins and bottom are similar to the previously approved PSU.

Best Regards,  
Martin.

**Subject:** C-Tick for GT-41062 series

Martin,  
Pls quote C-Tick for attached.  
How many samples needed?

The AC pins are same as one's you previously had approved, I would request that data be used for this series as its the same stuff...  
Thanks

ps. Happy New Years!!
