**NOTICE OF AUTHORIZATION TO APPLY THE UL MARK**

2008-01-08

Mr. Hans Moritz  
Globtek Inc  
186 Veterans Dr.  
Northvale, NJ 07647

E-mail: moritzh@globtek.com  
Reference: File E170507 Project 07ME06487 P.O. Number 3019753  
Product(s): USL/CNL – Switching Adapter model GT-51084-12N12 (GS-1121(R)) –QQGQ/QQG7-.

Dear Mr. Moritz,

Any information and documentation involving UL Mark services are provided on behalf of Underwriters Laboratories Inc. (UL) or any authorized licensee of UL.

UL's investigation of your product has been completed under the above project number and the subject product was determined to comply with the applicable requirements.

This letter temporarily supplements the UL Follow-Up Services Procedure and serves as authorization to apply the UL Listing Mark only at the factory under UL's Follow-Up Service Program to the subject product(s), which is (are) constructed as described below:

According to your letter dated 5/2/2007 we opened a project for the investigation of the Switching Adapter model GT-51084-12N12 (GS-1121(R)).

To provide the manufacturer with the intended authorization to use the UL Mark, the addressee must send a copy of this Notice and all attached material to each manufacturing location as currently authorized in File E170507, Volume X12.

This authorization is effective from the date of this Notice and only for products at the indicated manufacturing locations. Records in the Follow-Up Services Procedure covering the product are now being prepared and will be sent to the indicated manufacturing locations in the near future. Please note that Follow-Up Services Procedures are sent to the manufacturers only unless the Applicant specifically requests this document.

Products that bear the UL Mark shall be identical to those that were evaluated by UL and found to comply with UL's requirements. If changes in construction are discovered, appropriate action will be taken for products not in conformance with UL's requirements and continued use of the UL Mark may be withdrawn.

Sincerely,

Juan Calderon  
Senior Project Engineer
